

Candidate Match Summary

Himanshu Bhagat · sde · cv.pdf

OVERALL SCORE

74 / 100

SUMMARY

The candidate is applying for a Software Engineer position. The job requires a BTech/MCA or equivalent degree, 2-5 years of experience, and hands-on knowledge of ASP.NET, C#, Javascript, JQuery, Ajax, Oops, and Angular JS. Knowledge of PL/SQL is a plus. The role involves software development, testing, code reviews, bug fixing, and source code management. Soft skills like analytical thinking, communication, self-motivation, and adaptability are also important.

STRENGTHS

- Strong educational background from a top institution (IIT Madras).
- Relevant professional experience at Google, demonstrating practical application of software engineering principles.
- Proficiency in several required programming languages and tools (C#, Javascript, JQuery, Oops).
- Demonstrated understanding of design concepts and patterns.
- Excellent analytical and communication skills.
- Extensive project portfolio showcasing initiative and diverse technical skills.

CONCERNS

- Lack of explicit mention of ASP.NET, which is a required skill.
- Lack of explicit mention of Ajax and Angular JS, which are required skills.
- No mention of PL/SQL, which is a preferred skill.

SKILL EVIDENCE

Skill	Need	Match	Score	Gap
ASP.NET	required	missing	0	The resume does not explicitly mention experience with ASP.NET.
C#	required	strong	80	No major gap found.
Javascript	required	strong	90	No major gap found.
JQuery	required	strong	85	No major gap found.
Ajax	required	missing	0	The resume does not explicitly mention experience with Ajax.
Oops	required	strong	90	No major gap found.
Angular JS	required	missing	0	The resume does not explicitly mention experience with Angular JS.
PL/SQL	preferred	missing	0	The resume does not mention any experience with PL/SQL.
Design Concepts/Patterns	required	strong	85	No major gap found.
Analytical Skills	required	strong	90	No major gap found.
Communication Skills	required	strong	90	No major gap found.

RECOMMENDATIONS

ASP.NET

HIGH

Gain hands-on experience with ASP.NET, perhaps through online courses or personal projects, to address the explicit requirement.

Ajax and Angular JS

MEDIUM

Familiarize yourself with Ajax and Angular JS. Consider incorporating them into future projects or seeking opportunities to use them in your current role.

PL/SQL

LOW

If opportunities arise, gain some exposure to PL/SQL to cover the preferred skill.
